

User Guide

for your Pluxee Lunch card.

📱📱 The card will allow contactless and online payments, and you can use it to make secure purchases down to the penny within the Pluxee network! 📱📱

The benefits of the Pluxee Lunch card.

1.

EASY TO USE

The electronic lunch vouchers will be uploaded on your card after each order placed by your employer and the oldest e-vouchers will be automatically used first.

2.

DEDICATED MOBILE APPLICATION AND WEB PORTAL

With the Pluxee App and the [web portal](#) you can activate and manage your card, follow your balance and transaction history, consult our acceptance network and check the PIN code of your Pluxee Lunch card.

3.

A SECURE SOLUTION

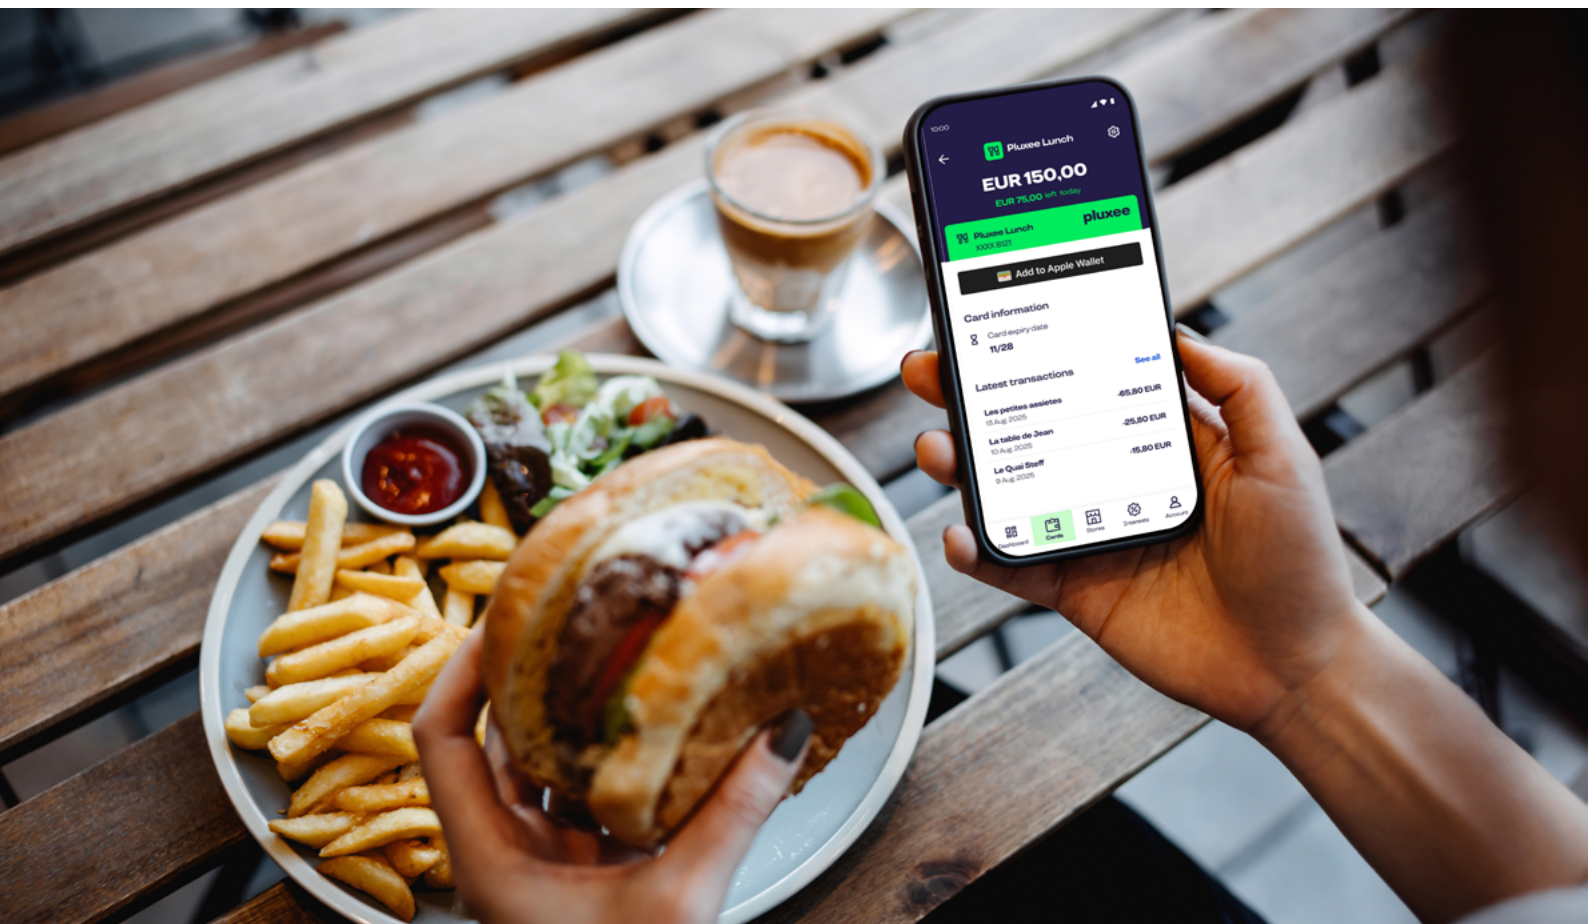

Like an ordinary bank card, the Pluxee Lunch card operates with a PIN code and can also be used for contactless payment. Online payments are also secured via CVV. In the event of loss or theft, the card can very easily be blocked and replaced.

4.

PAY WITH YOUR MOBILE

With Apple Pay and Google Pay, you can pay directly with your iOS or Android device.

All your Pluxee
services.**

How to activate your Pluxee Lunch card?

Take your Pluxee Lunch card (you will find the CARD ID at the back of your card) and your PLUXEE ID (you can find it on your PIN mailer). Both will be delivered separately for security reasons.

Download the mobile application Pluxee on [Apple Store](#) or [Google Play Store](#). You can also log in with the Web portal.

Follow the explanation included in our App Userguide to create your account and activate your card.
